### Testimonial letter for Likhaya Xanywa

I am writing to acknowledge the contribution of Likhaya Xanywa, who joined CIOB Tomorrow's Leaders in 2023. Since becoming a member, Likhaya has dedicated approximately 60 hours to the organisation. His contributions include assisting in the planning of the "Building Futures: Empowering You for Industry Success" event at the University of Cape Town. This event, which aimed to bridge the gap between academic learning and industry practice, required Likhaya to be attentive and pay close attention to detail.

In addition to this, Likhaya has been actively involved in CIOB meetings, dedicating his time to planning for the 2024 Members Forum that will be held in Cape Town. His commitment to these initiatives has been instrumental in fostering collaboration and engagement among students and industry professionals.

Likhaya's ongoing dedication to the CIOB highlights his leadership and commitment to enhancing the learning experience of his peers and the broader built environment community.

Please feel free to contact me if you require any further information.
