RE: Practical Training of Mr. Likhaya Xanywa

Dear Ms. Le Jeune

It was a privilege to have Likhaya Xanywa joining the Department of Public Works and infrastructure as part of his practical training.

During his time with us, he was working closely with a Construction Project Manager and Project Team for the duration of 36 hours. He was given the following tasks;

- assisting the Construction Project Manager with project administration.
- assisting to compile and load documents for Close-out Reports on the Department of Education online filing system (EFMS system).

He showed us sense of leadership in how he has carried out the tasks. His dedication and approach towards learning the industry is commendable. He joined us for a short time, however, we were impressed by his inquisitive mind and work ethic. We hope to see him for future training.

We wish him all the success for his future endeavours.

Yours faithfully,

Mr. Siyabulela Boltina

Construction Project Manager
